DOB Conceal Downlights

CONCEAL DOWNLIGHTS

Conceal Downlights are modern, discreet lighting fixtures designed to blend seamlessly with the architecture of a space by being recessed into the ceiling or wall. These downlights create a soft, ambient glow, ideal for mood lighting or accent lighting in both residential and commercial settings. By concealing the light source, they offer a clean, clutter-free aesthetic while delivering a sophisticated lighting experience.

Soft, Diffused Lighting: These downlights provide gentle, diffused illumination, perfect for creating an inviting ambiance or highlighting architectural features.

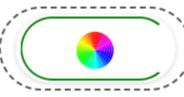

Energy Efficiency: As with most modern lighting systems, Conceal Downlights use LED technology, which consumes less power while providing a high-quality, long-lasting light output. This energy-efficient feature makes them ideal for continuous use in various settings, such as homes, hotels, and commercial spaces.

Durability and Longevity : Made with high-quality materials such as aluminum or polycarbonate, these downlights are durable and built to last, with a long operational lifespan. This reduces the need for frequent maintenance or replacements, making them a cost-effective lighting solution.

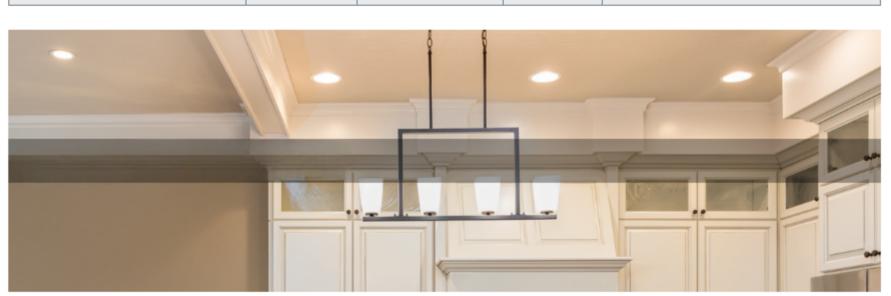

High Quality LED

50,000 Lifespan

Energy Saving High CRI

Product Code	Series	Watt	Housing Material	CCT Tunable	Dimension		
					Dia (mm)	Height (mm)	Cut Out (mm)
SLCL 7BPS	BPS Series	7	PC + AL	Available	110	50	75
SLCL 7MIR	MIR Series	7	PC + AL	Available	110	50	75
SLCL 7CMT	CMT Series	7	PC + AL	Available	110	50	75
SLCL 9SR	SR Series	9	AL	Available	111	45	75
SLCL 9PA	PA Series	9	AL	Available	111	45	75
SLCL 9LGP	LGP Series	9	AL Casted	Available	123	42	75
SLCL 7SUN	SUN Series	7	PC	Available	110	30	75
Operating Voltage: 100 - 440VAC		IP Rating: IP 20	Power Factor: >0.95	CRI: >80	Colour Temp: W/WW/R/G/B/P		

APPLICATIONS

Hospital

Homes

Living Room

Residential Spaces: Conceal Downlights are commonly used in conceal boxes which are being installed in ceiling during building construction.

Economical Solution: As these are the most economical cost effective solutions in today's world, thus they are in high demand in tier 2 &3 cities along with rural areas.
