E Loader

Experience a new era of efficiency and sustainability with Shree Lux E-Loader the ultimate solution for hassle-free cargo transportation. Designed to revolutionize the way you move goods, our E-Loader combines cutting-edge technology with innovative design, empowering businesses and individuals to achieve seamless logistics.

The Features

- **Fast Charging** : Fully charges in just 3 hours, minimizing downtime.
- **100 km Range per Charge**: Provides excellent mileage for extended trips.
- **Low Running Cost** : The efficient battery ensures a running cost of just 40 paisa per km.
- **Battery Durability** : Designed to support rugged and consistent usage without frequent replacements.
- **Optimized Power Consumption** : Maximizes battery efficiency for longer operational life.
- **Eco-Friendly Power Source** : Reduces carbon footprint with clean and efficient energy.
- **Compatibility with Standard Charging Ports** : Easy to charge with widely available infrastructure.

Feature	Specification
Dimensions	2800x1000x1800 mm
Motor	48V, 900W, BLDC Motor
Battery	100 AH x 4
Battery Charger	SMPS
Distance Covered After Each Charging	80-100 km
Maximum Speed	25 km/hr
Front Suspension	Telescopic
Controller	DC Brushless Controller
Wheel Size	12"
Brake	Mechanical drum / Hydraulic disc
Total Weight	320 kg
Load Capacity	700 kg
